

**SOME SELECTED WORKS OF
DANIEL FELES**

Booking Panel for Skyscanner

One of my biggest projects while working at Skyscanner, I needed to design the Booking Panel page, which tells you the details about your selected flight.

My process of design involved an extensive research about what are the major details, users are looking for in different flight options. Then a huge amount of wire frames, early visual designs, rapid prototypes and most importantly user tests.

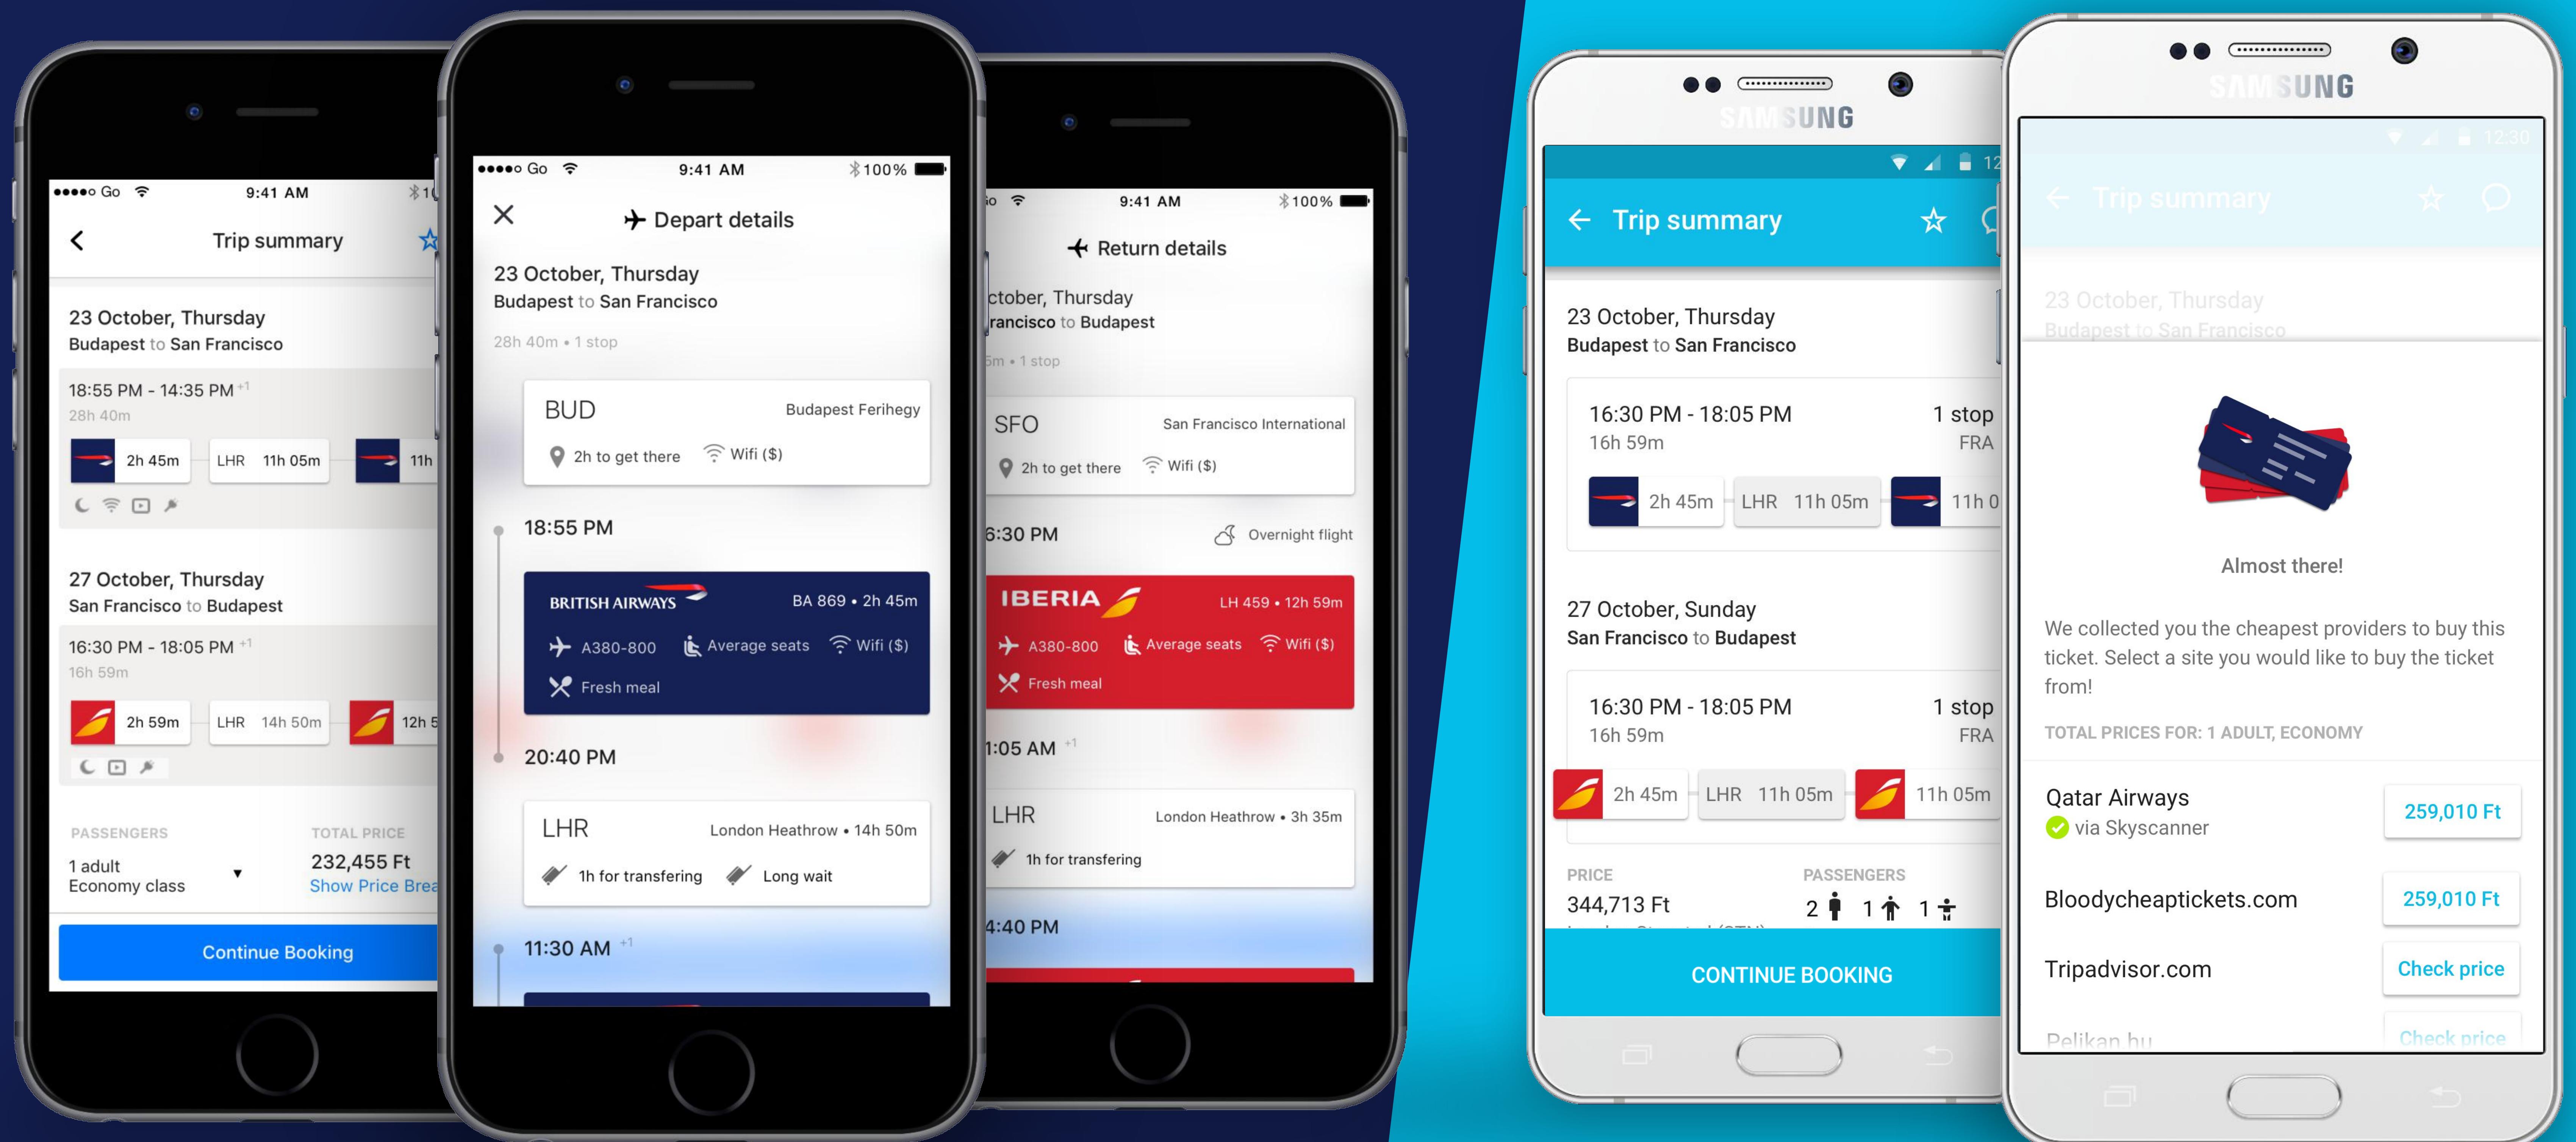

After the final design was ready, I worked really closely with developers, to implement all visual details and animations, in a way it was designed, which often involved me jumping in the production code.

Now it is released to 30M+ active mobile users on both platforms around the globe.

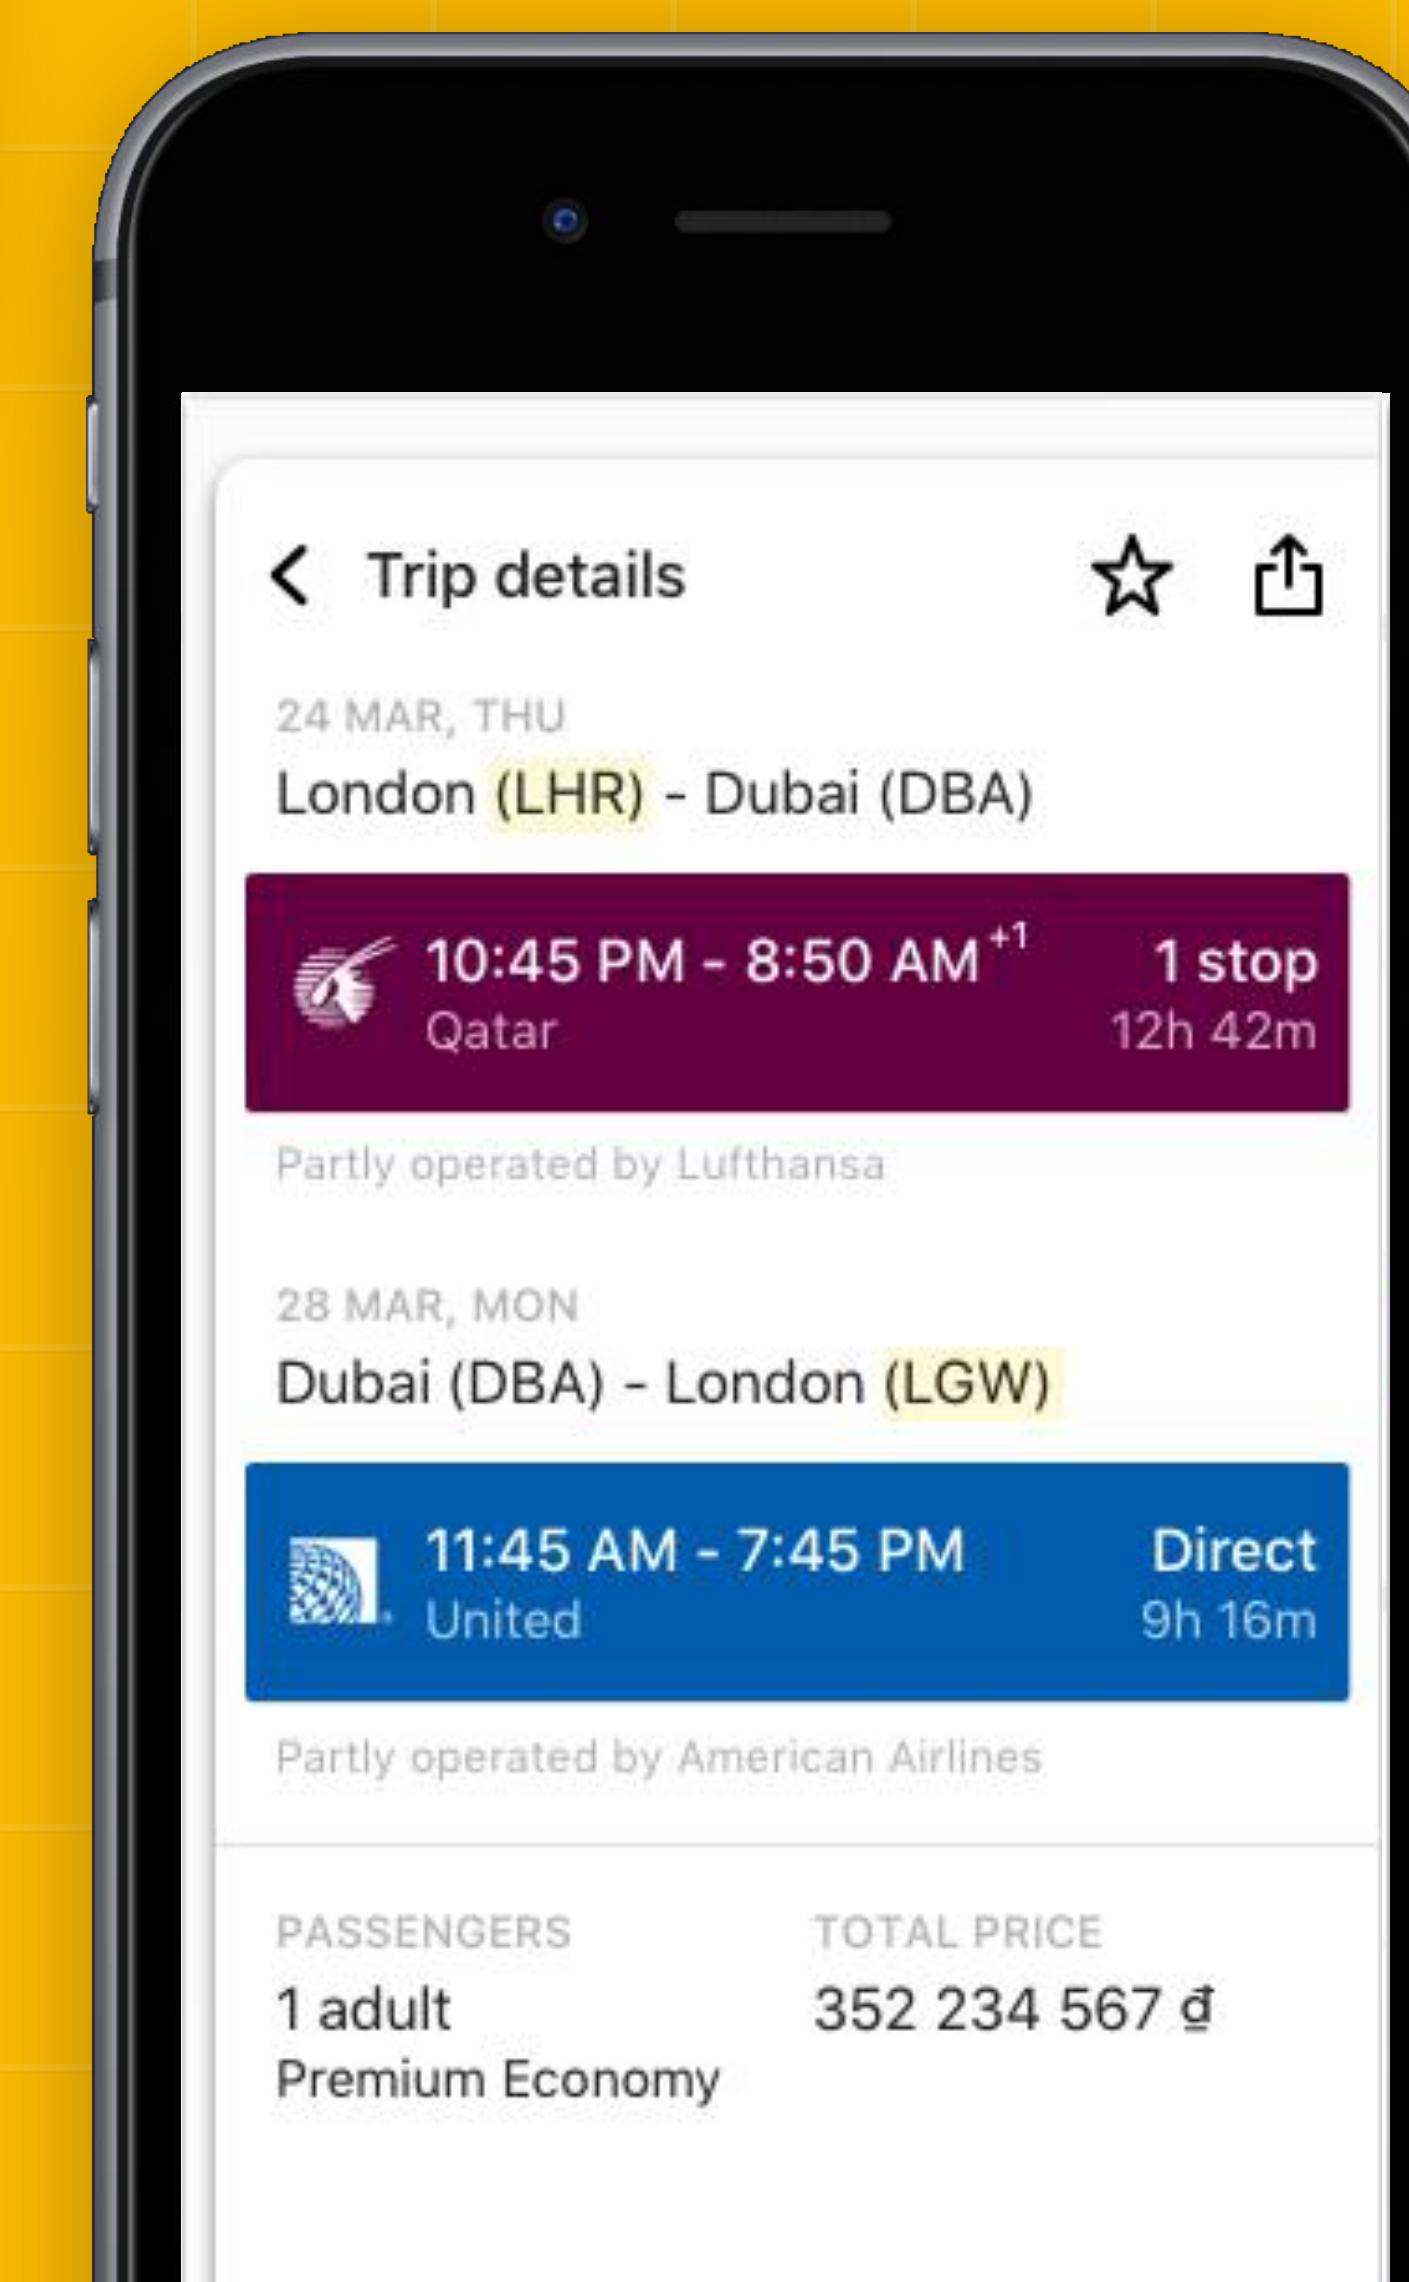

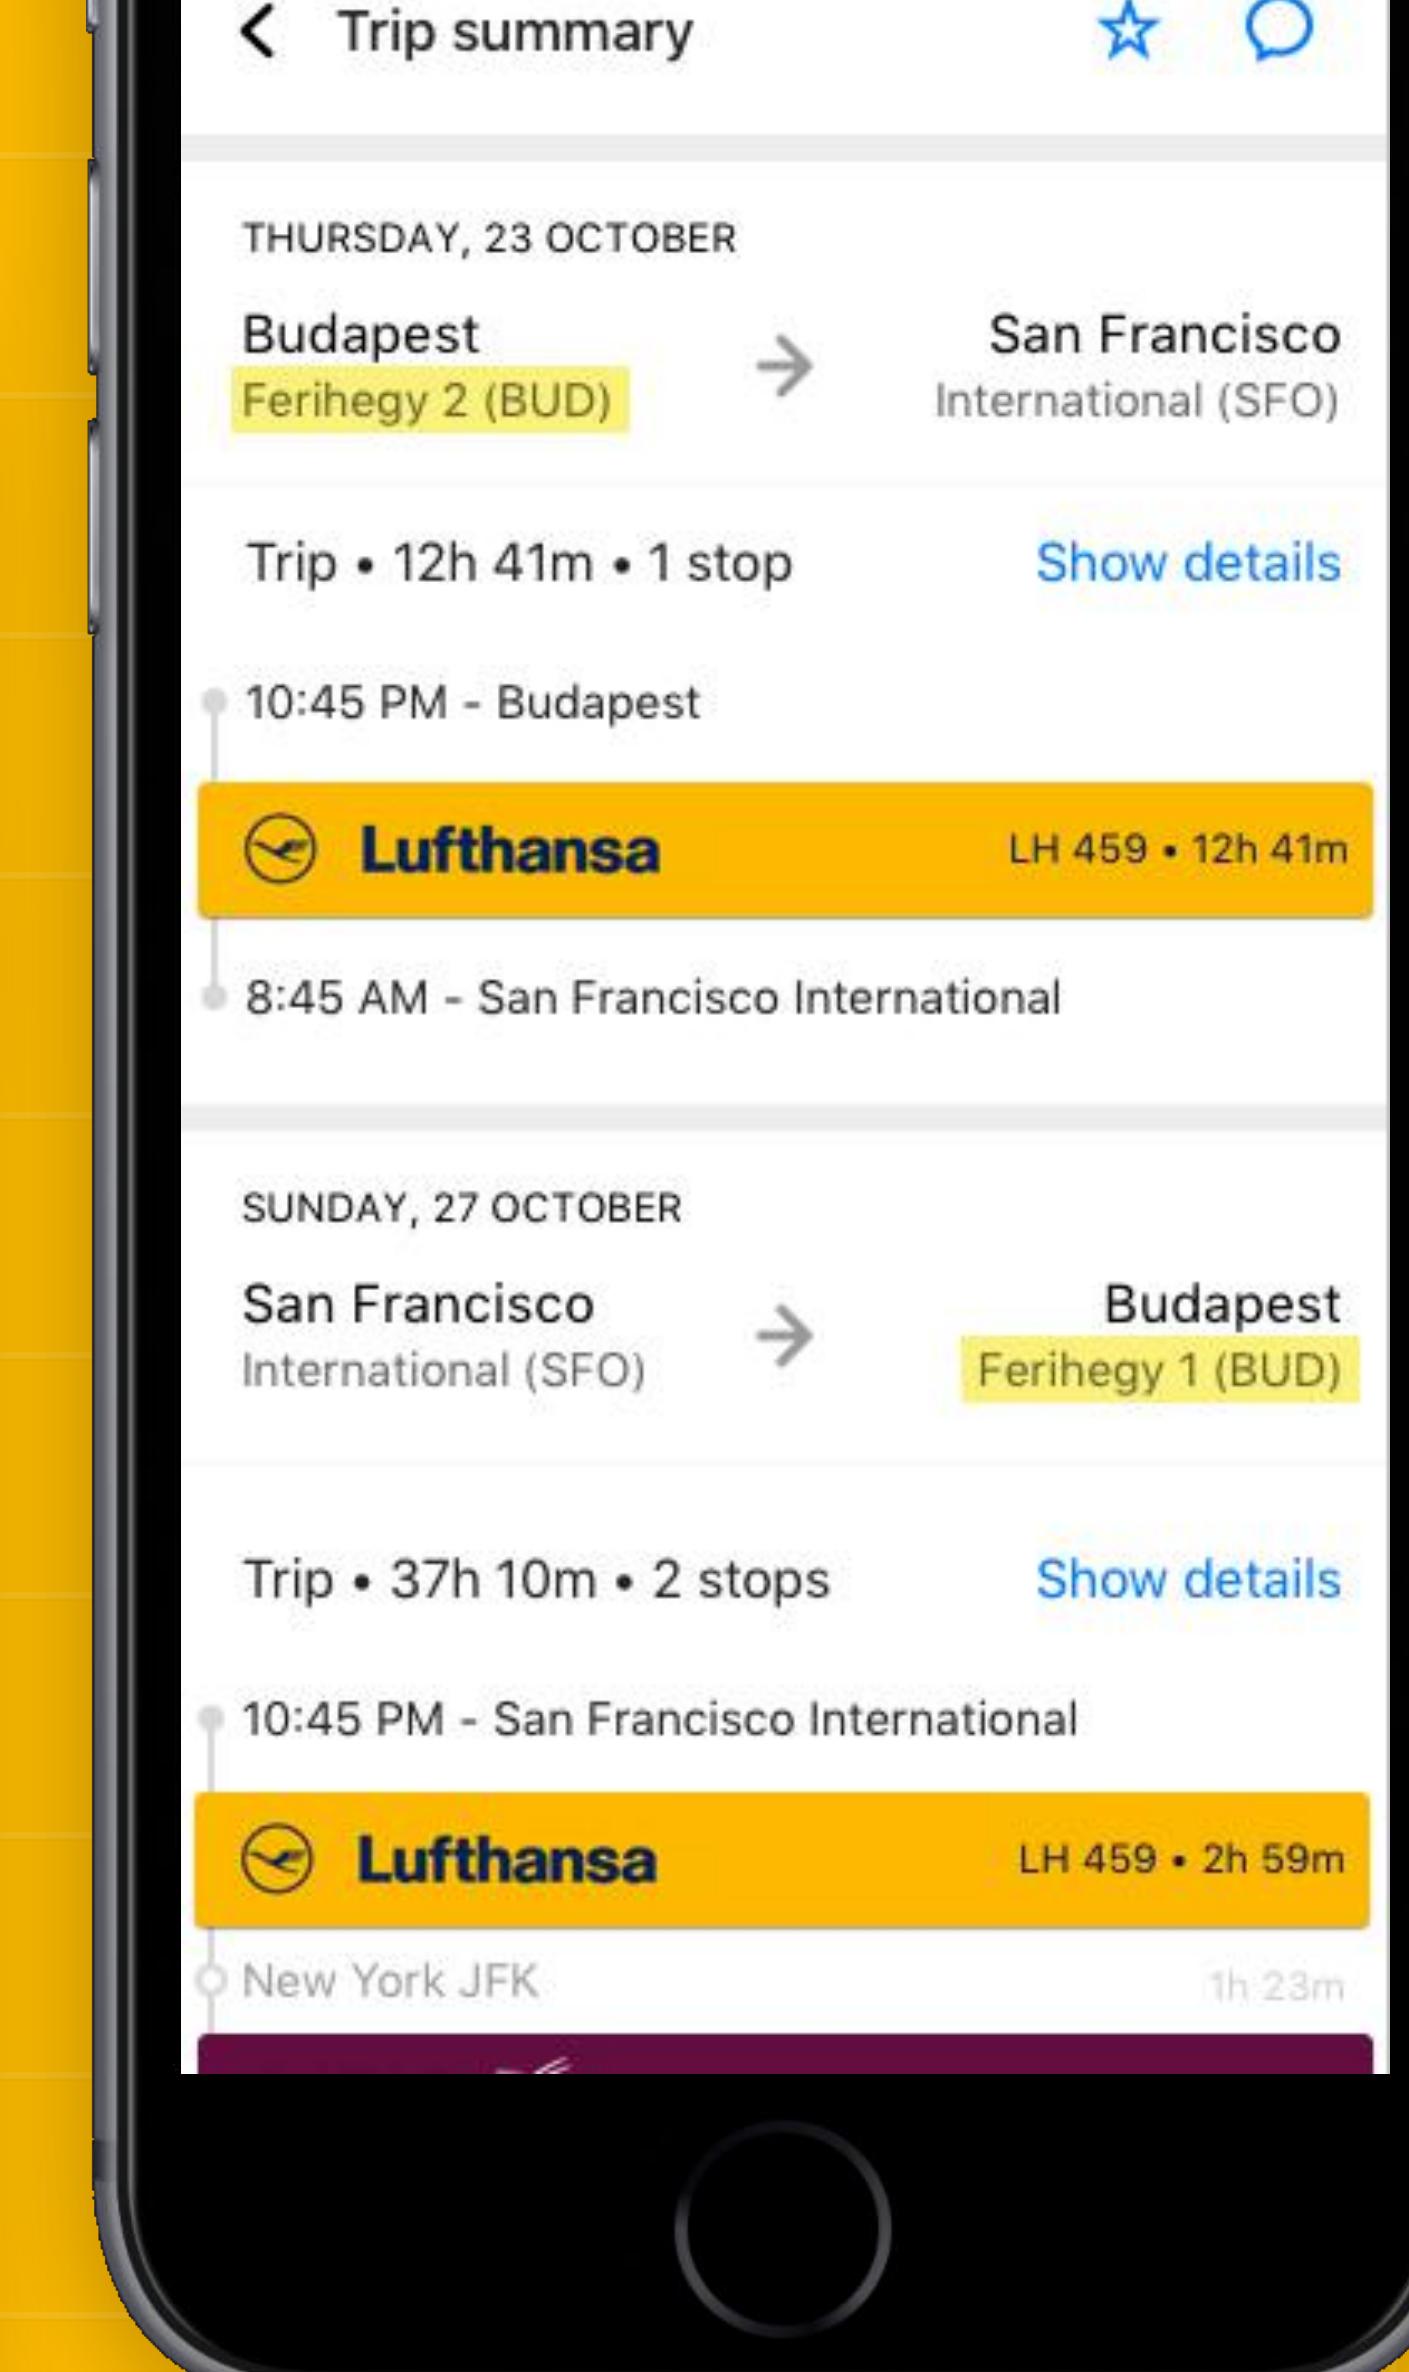

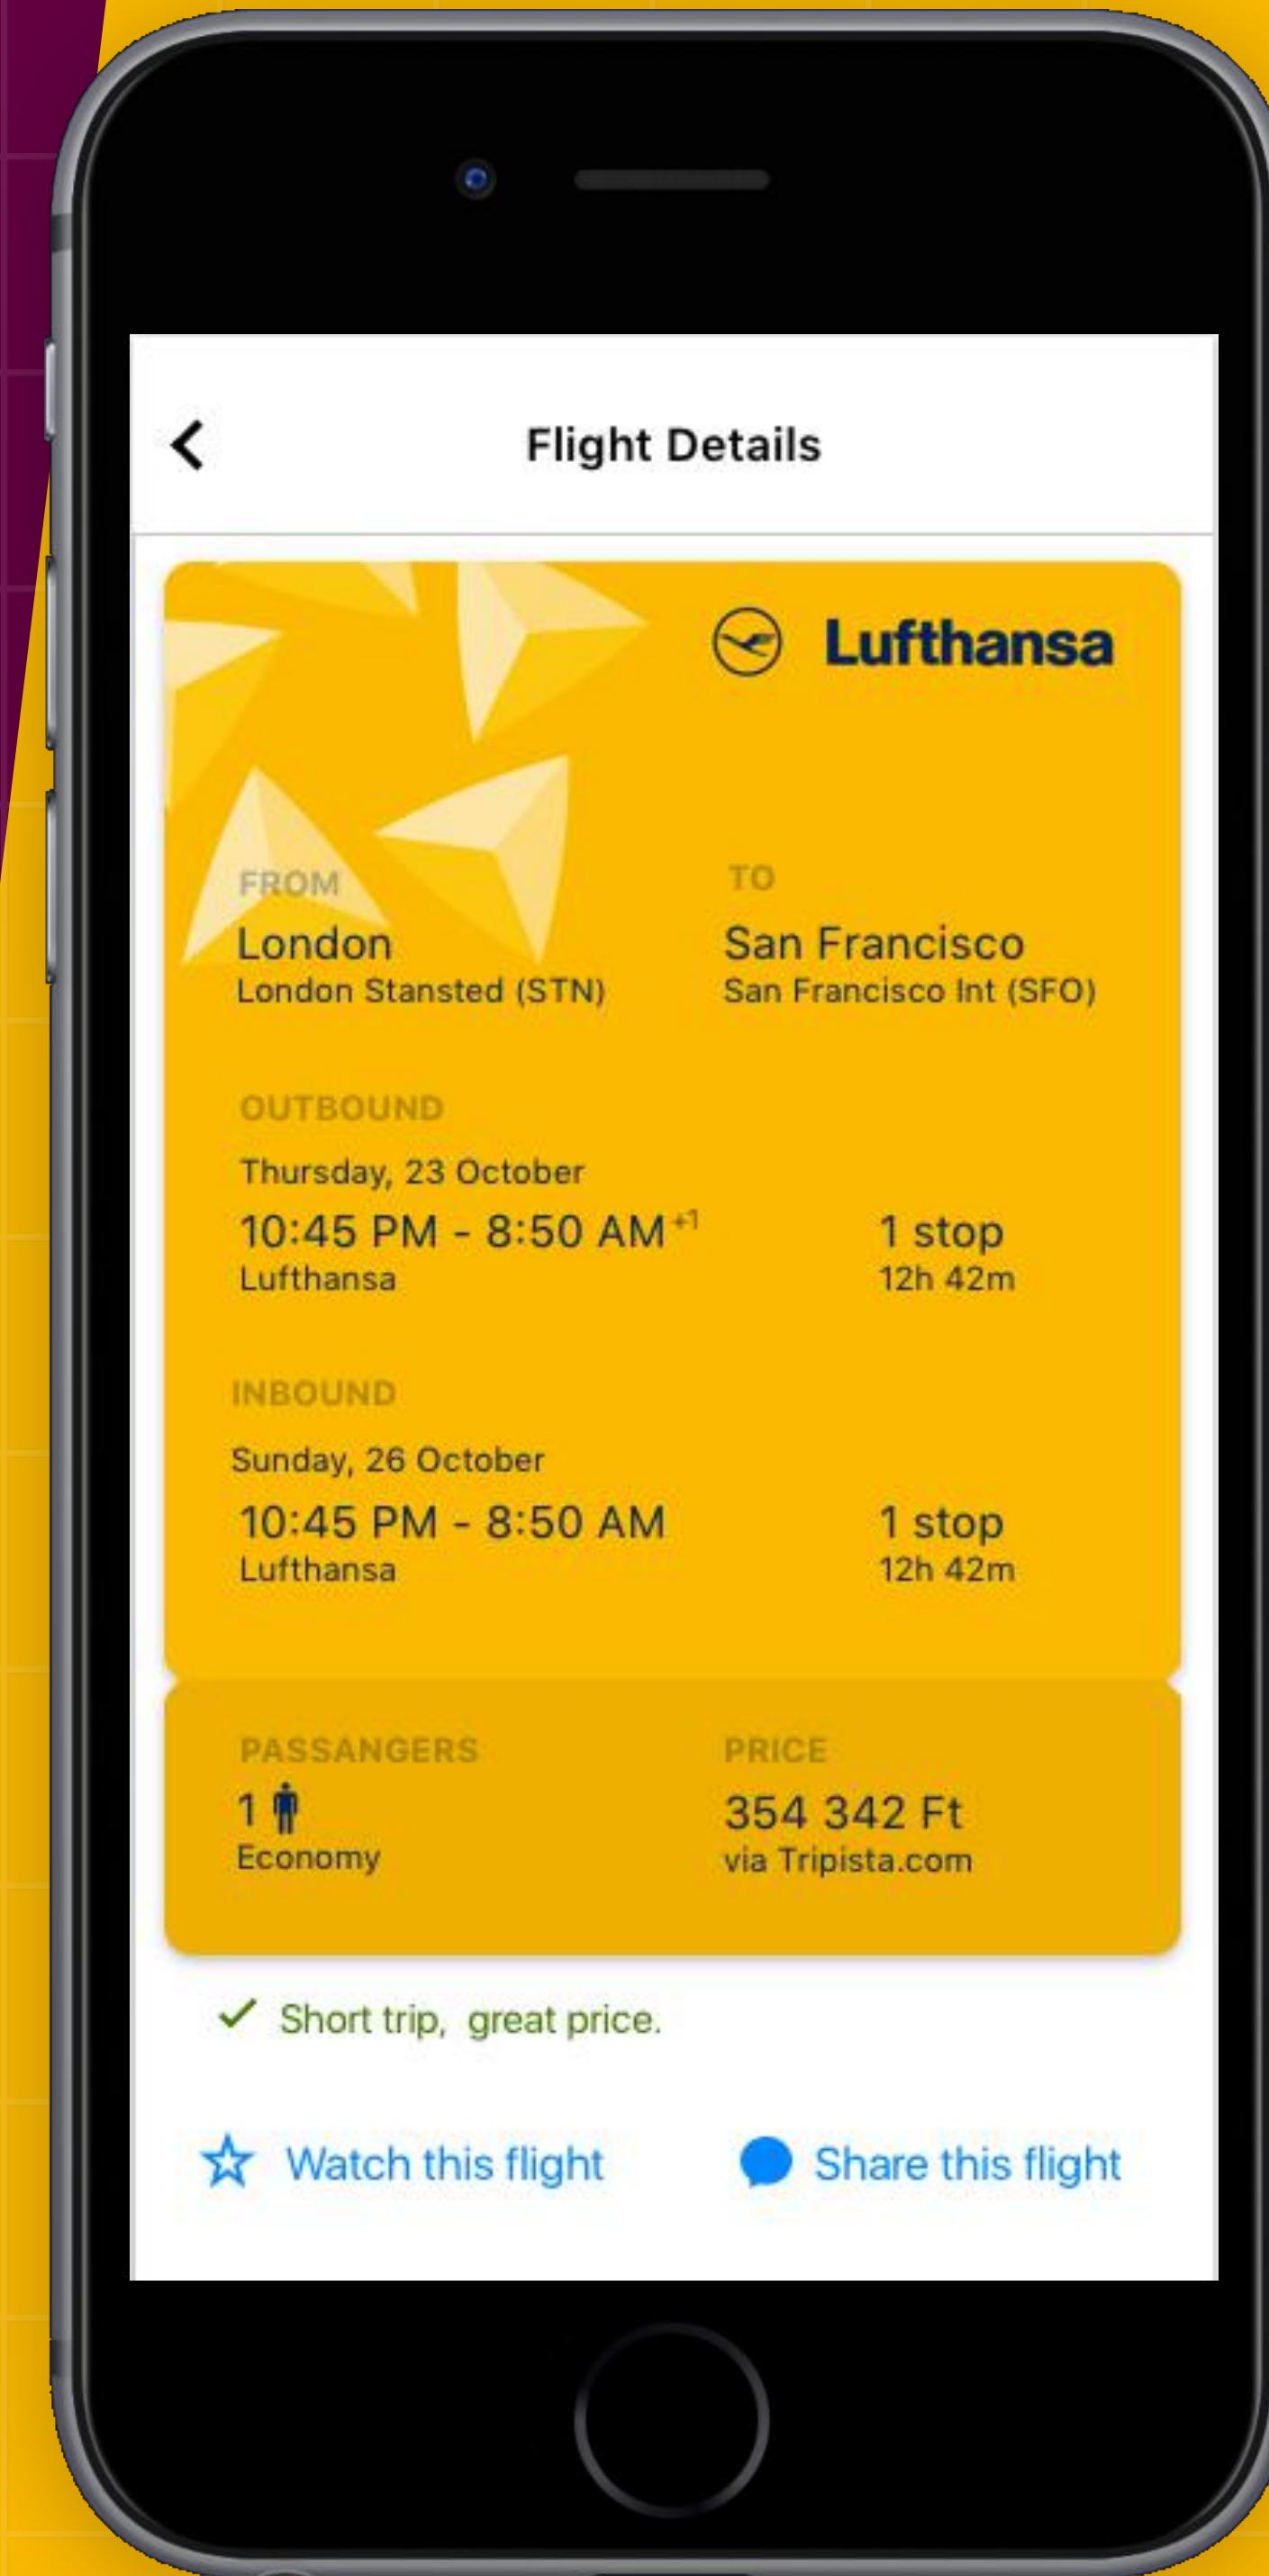

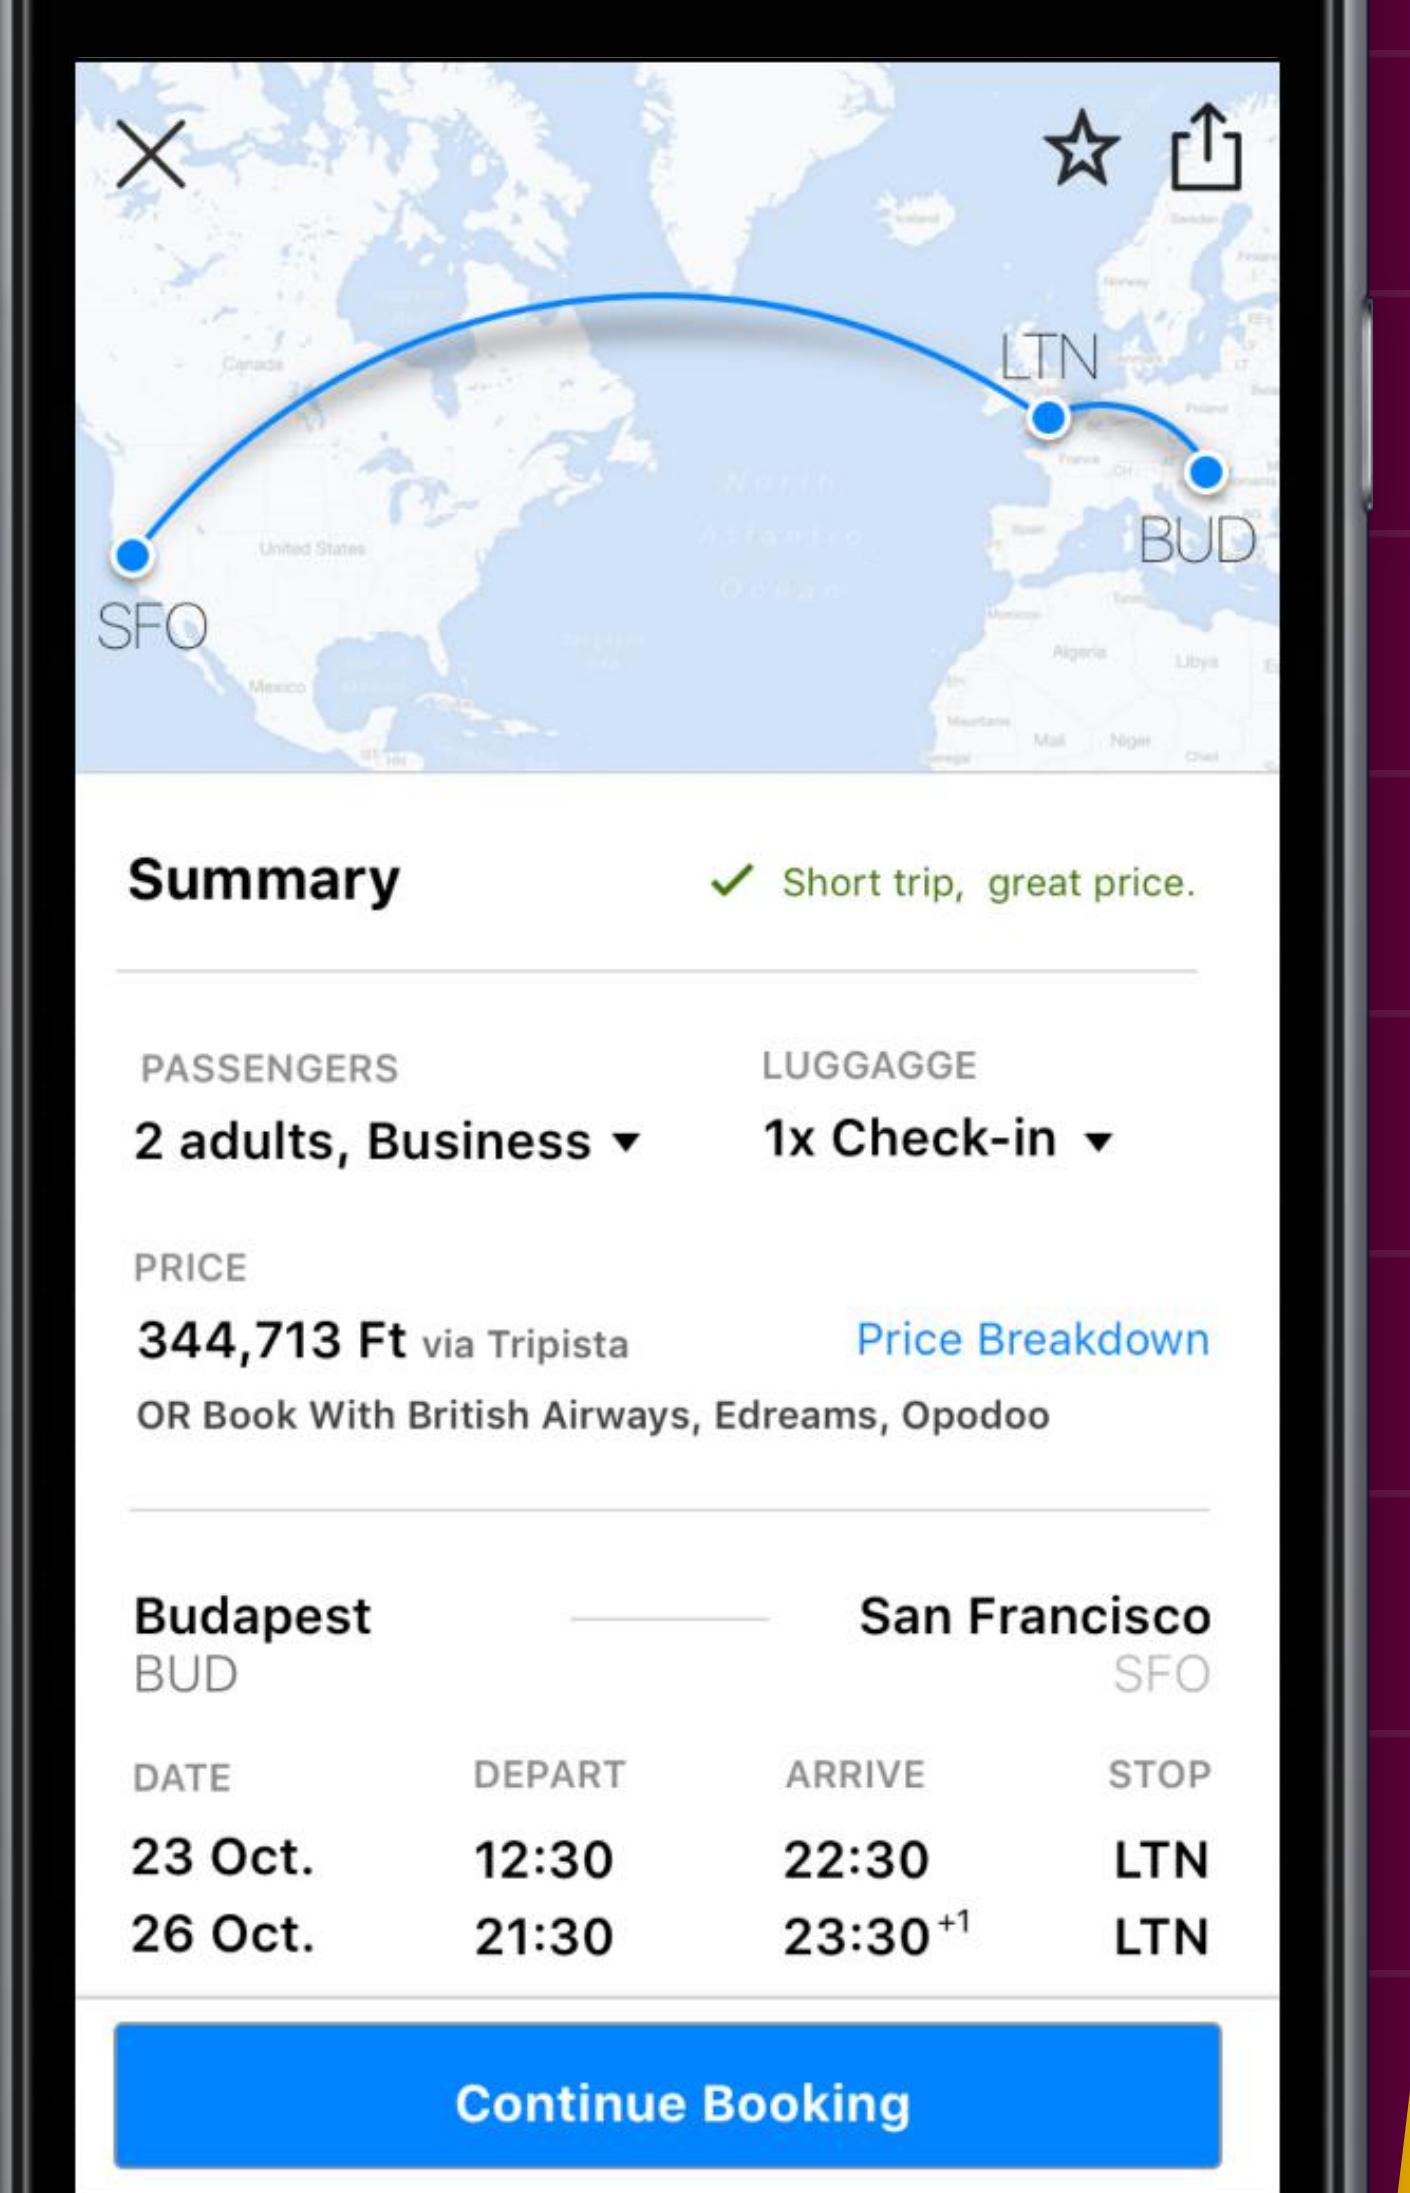

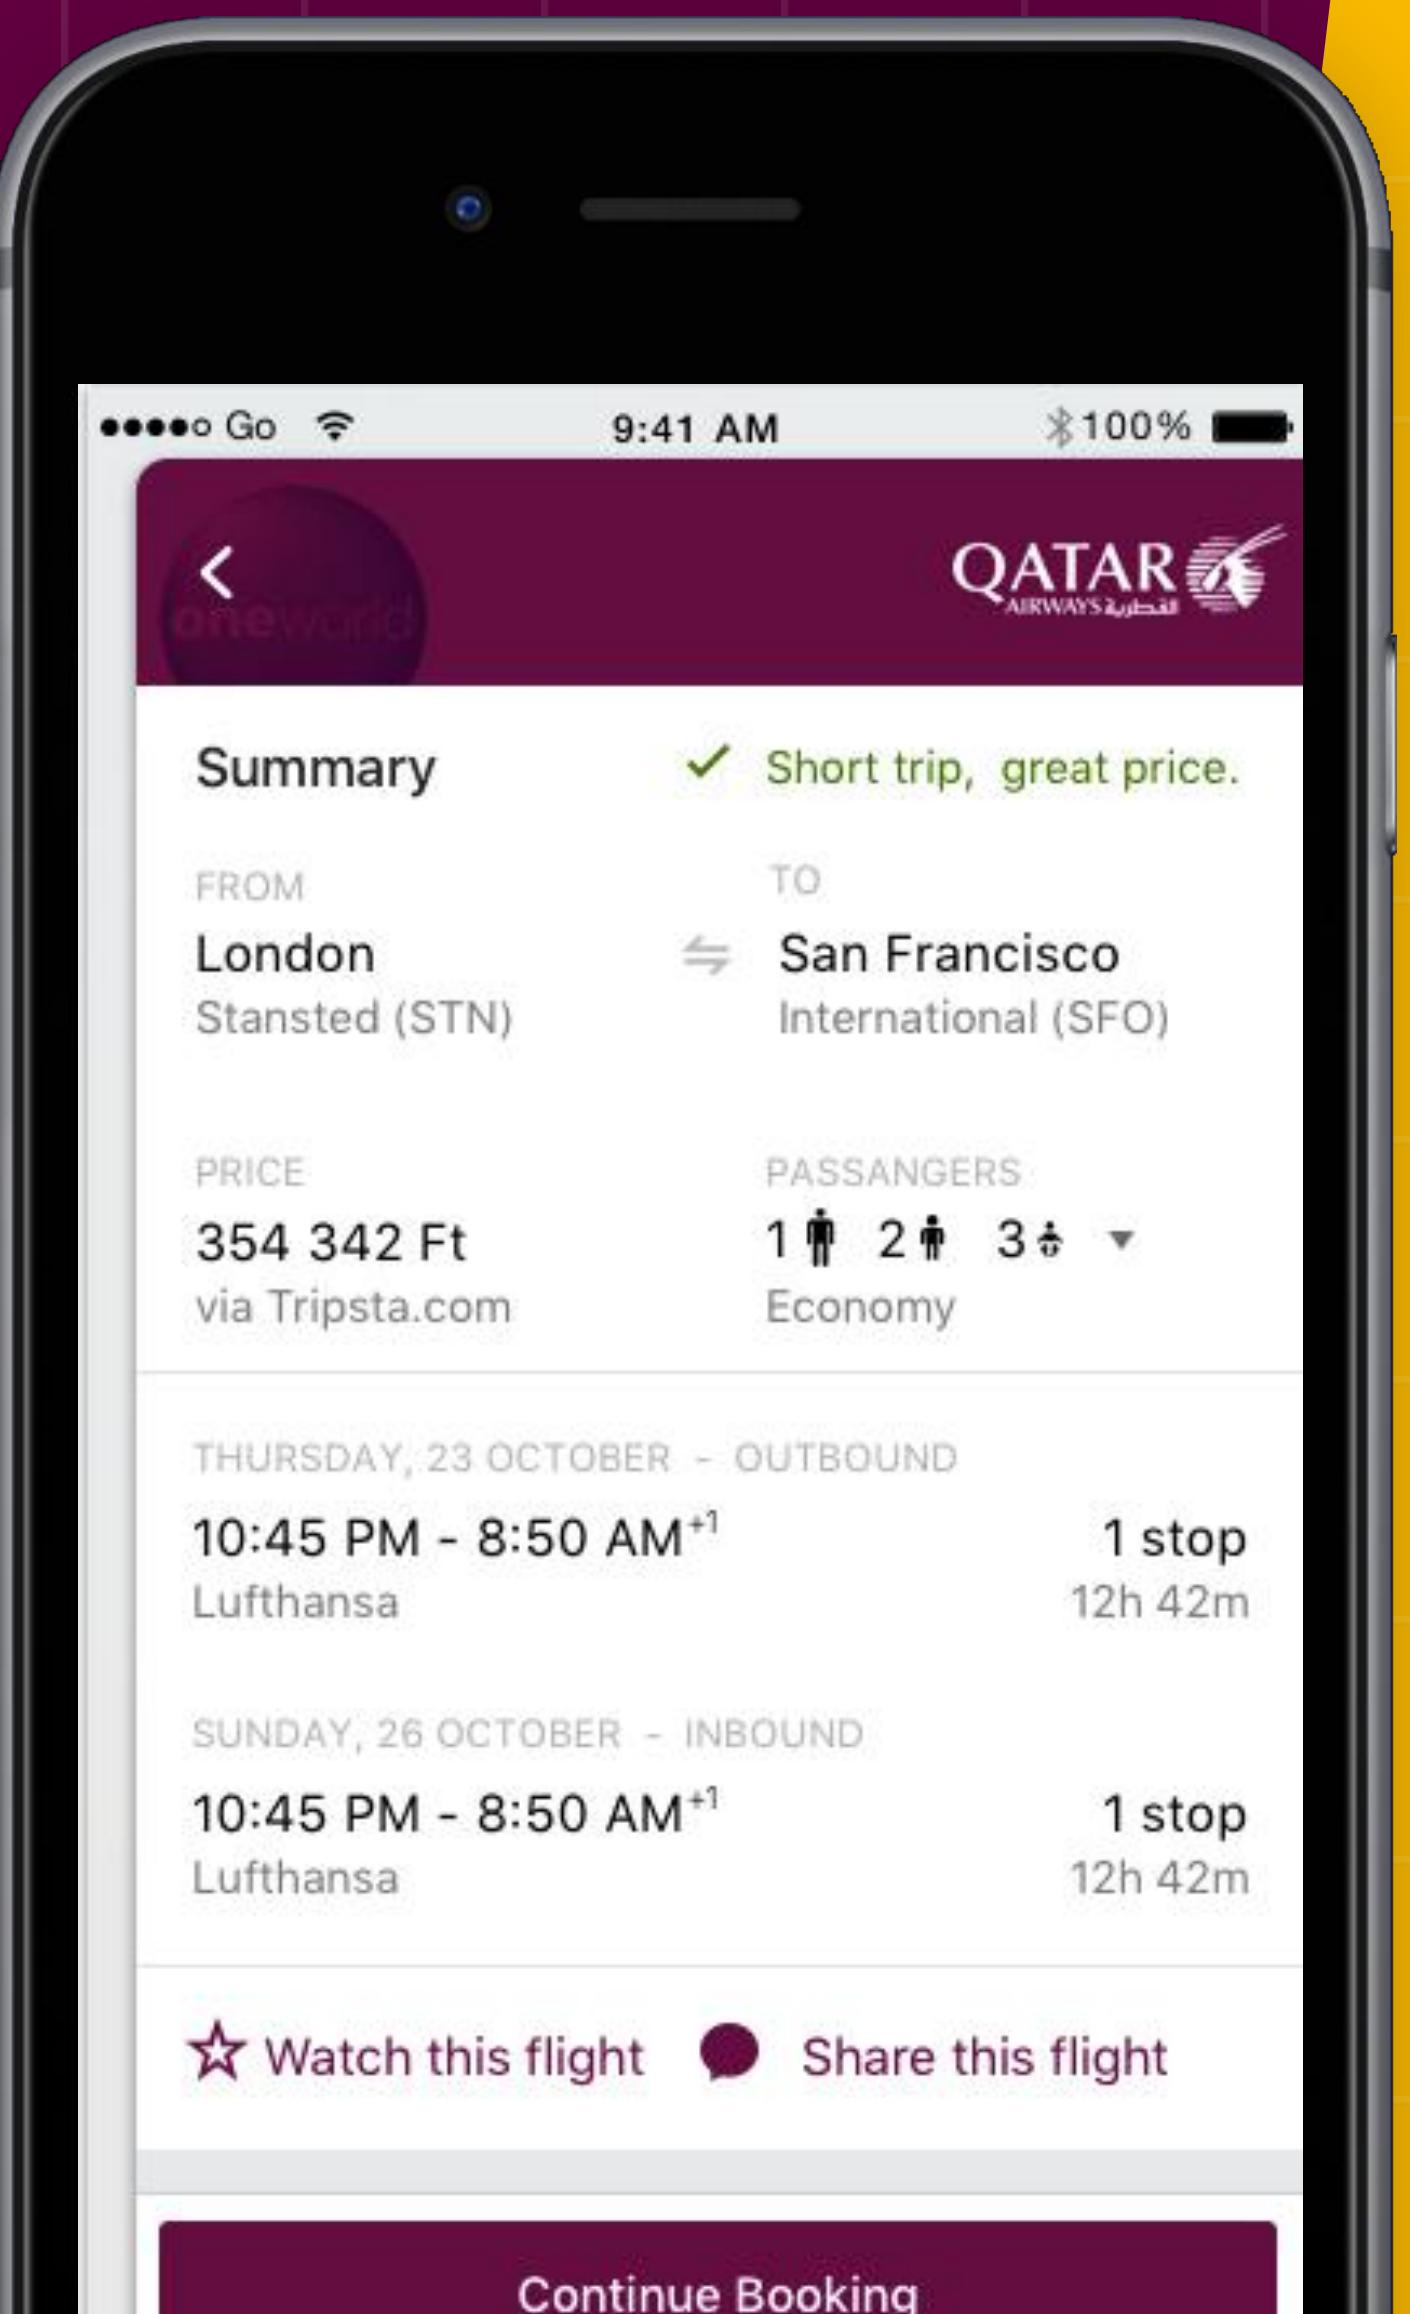

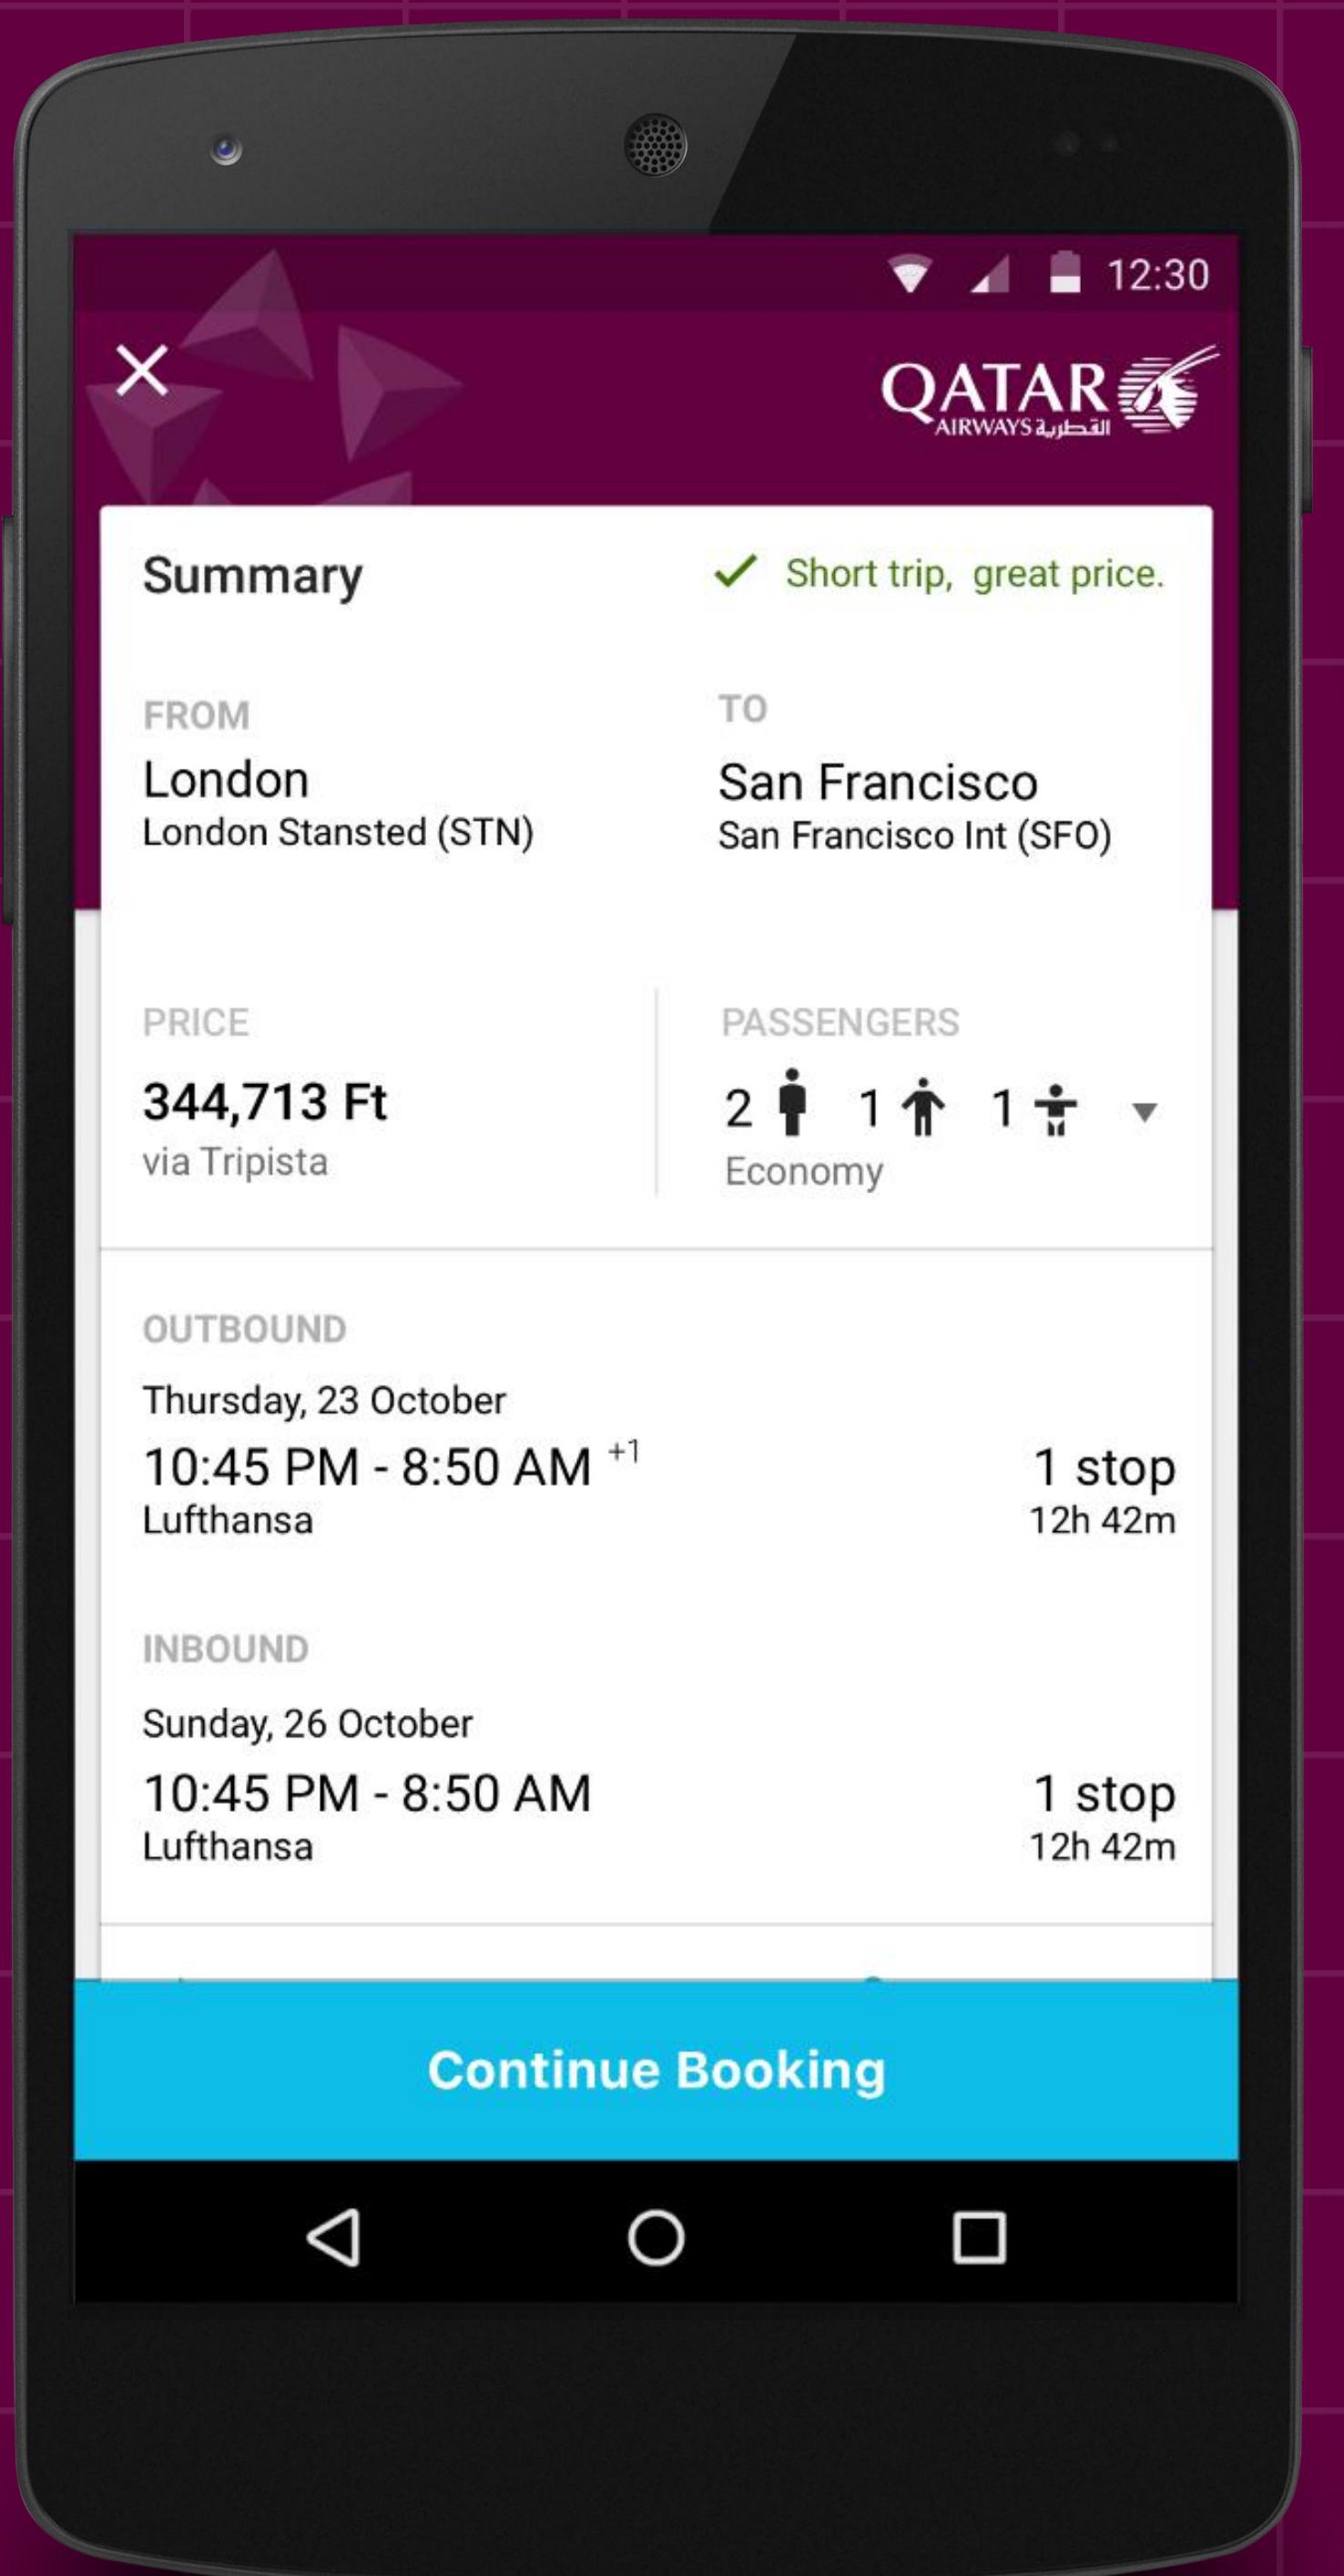

There are links to prototypes attached.

Platform: iOS, Android

prototype: bit.ly/bookingpanel

SkyScanner Booking Panel Iterations

Pull-to-refresh animation

for Skyscanner

Playfull pull-to-refresh animation designed to the "Day view" screen, what is displaying the search results for given route.

The idea was to include some delight to this data-heavy screen, which some users are scared about.

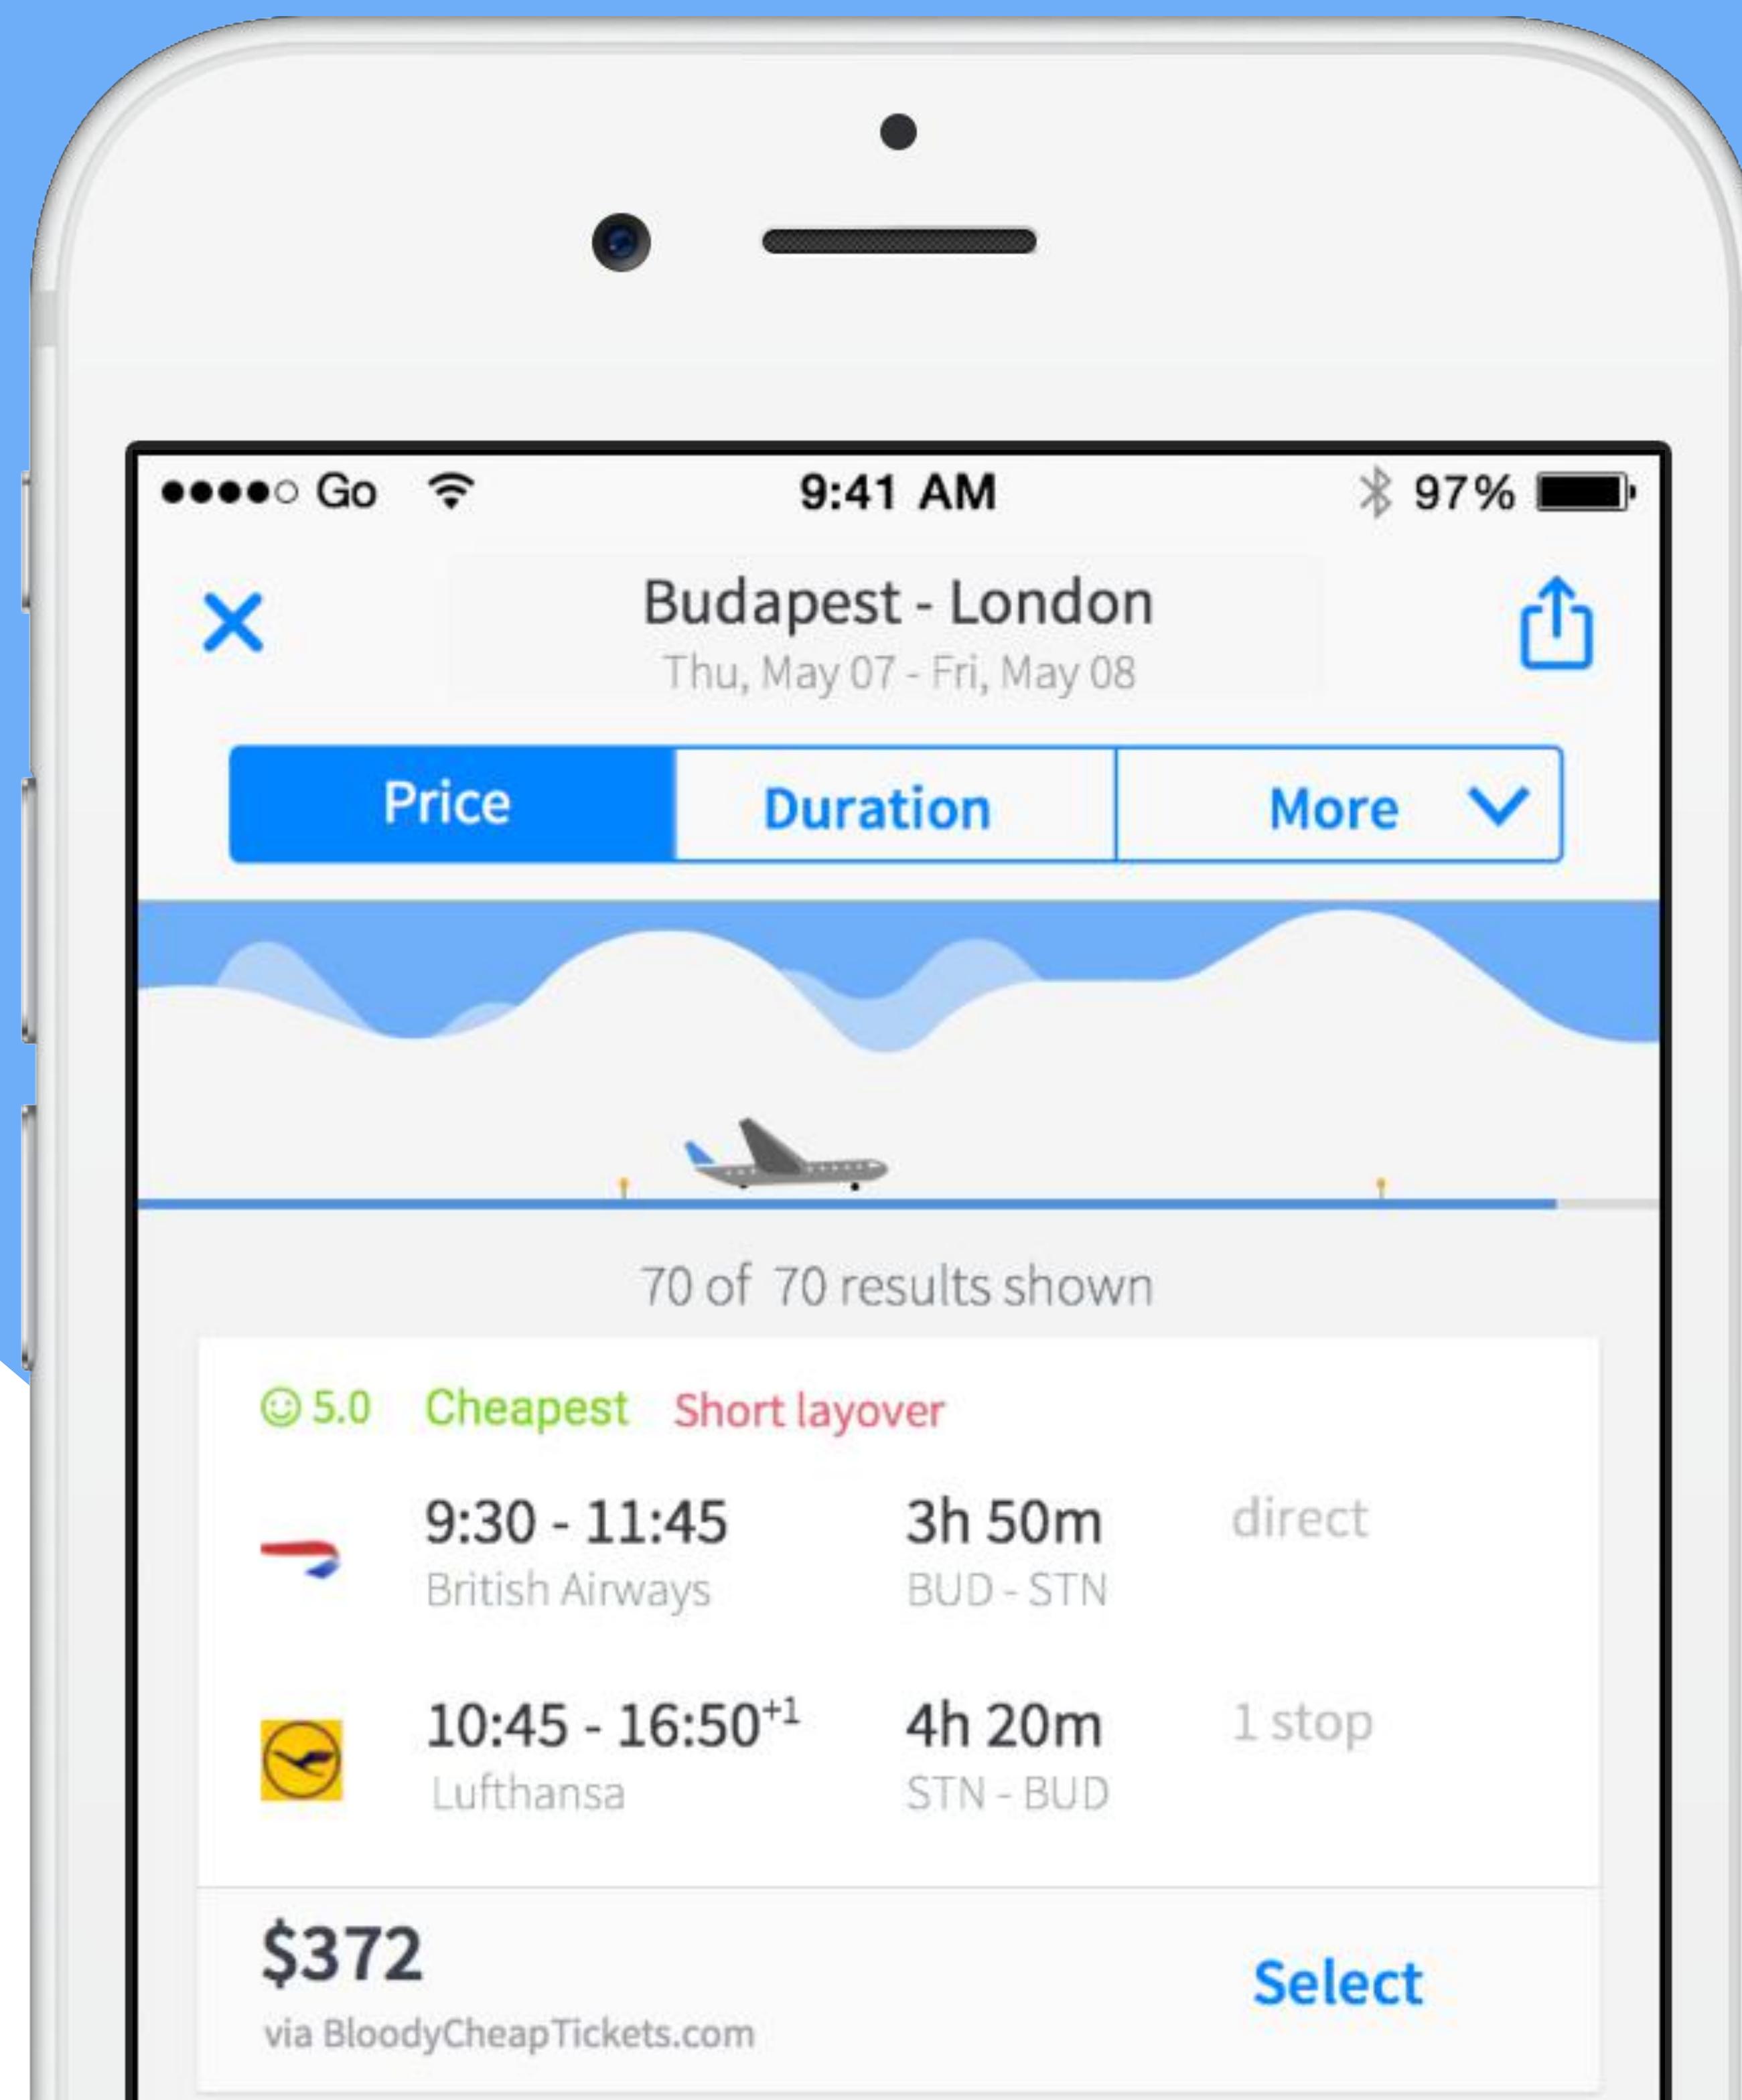

It was featured on Muz.li and Framer's official twitter page

Please watch the attached link for the full animation:

Native Desktop app for Prezi

At Prezi I worked for 2 years on the Native desktop team, where the main challenge was to implement Prezi's web based editor on native platforms.

This was a really complex project, I decided to showcase the main screen for both platforms.

Now it is released to all 50M+ users around the globe.

Platform: OS X, Windows

Prezi Native OS App

Recently released

The screenshot displays the main interface of the Prezi Native OS App. At the top, there is a header bar with three colored window control buttons (red, yellow, green), the user's name "Clark Kent" with a profile icon, a "NEW PREZI" button, a search bar containing "Search prezis...", and a magnifying glass icon. Below the header, the title "All prezis" is followed by "35 prezis" and a "Synced 2 seconds ago" status with a refresh icon. The main content area consists of a 3x3 grid of presentation thumbnails:

- Messy Notes**: A thumbnail featuring a collage of office supplies like a smartphone, sticky notes, and pens on a textured background. Status: DOWNLOADING.
- Calendar Design**: A thumbnail with a green leaf texture background and several white circles containing text.
- Big Data presentation**: A thumbnail with a green leaf texture background and several white circles containing text. Includes a "Next Beta" button.
- EU Labor mark ... october**: A thumbnail with a colorful, cartoonish design featuring a lightbulb, gears, and the text "THE CREATIVE IDEA". Status: EDITED 2 WEEKS AGO.
- Current workflows**: A thumbnail showing a complex flowchart with nodes like "What is design?", "Arts & Crafts", "Product Design", and "Experience Design".
- Workflows**: A thumbnail showing a grid of small preview images of various presentations, with the text "DEC 2013" at the bottom.

Prezi Native Windows App

Recently released

The screenshot displays the main interface of the Prezi Native Windows App. At the top, there's a navigation bar with a back arrow, a user profile picture for 'CLARK' (with a superhero logo), and standard window control buttons. Below the bar, there are two tabs: 'synced prezis' and 'local only prezis'. Underneath these tabs are three filter options: 'ALL PREZIS', 'OWNED BY ME', and 'SHARED WITH ME'. On the right side of the interface, there are several icons: a refresh button, a gear icon for settings, and a search bar with a magnifying glass icon.

The main content area consists of a 2x3 grid of presentation thumbnails:

- Top Left:** A presentation titled 'The Creative Idea' featuring a large blue plus sign icon. It was created '2 MINUTES AGO'.
- Top Middle:** A presentation titled 'Fluent Marketing' with the subtitle 'We tell your story'. It features a central circular diagram with four quadrants labeled 'DATA', 'RESULTS', 'APPROACH', and 'Drop Arcan logo here'. It was created '2 MINUTES AGO'.
- Top Right:** A presentation titled 'Sync workflows' showing a complex network of interconnected nodes and lines. It was created '2 MINUTES AGO'.
- Bottom Left:** A presentation titled 'Morning meeting 11/23' featuring a collage of office supplies like a smartphone, sticky notes, pens, and a notepad. It is currently 'NOT YET DOWNLOADED'.
- Bottom Middle:** A presentation titled 'Copy of current Workflows' showing a detailed diagram of various workflow steps and processes. It was created 'NOVEMBER 21'.
- Bottom Right:** A presentation featuring a large blue plus sign icon, similar to the one in the top-left thumbnail.

Generative Identity

for Prezi Power Week 2014

At 2014 Prezi's company-wide week long meeting, we decided to build a visual identity for the companies values.

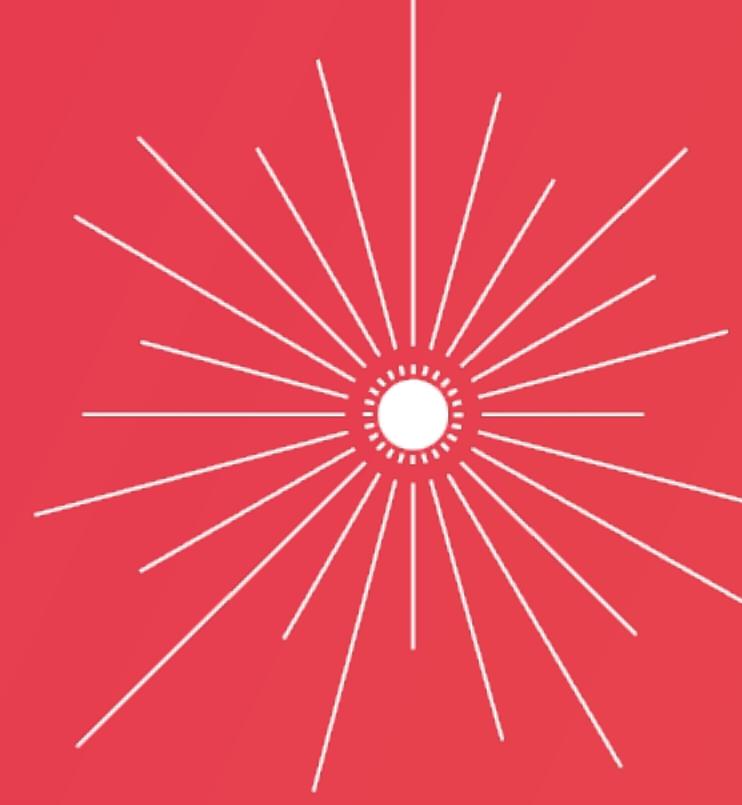

This time we wanted to do something entirely new, so we decided to use abstract graphic elements and animations.

This identity was used on a website, at the event with big prints, on screens with the animations, and printed on bags.

We used code for the animations, allowing us to mockup small details at high speed - things like the length of an explosion. The use of random numbers added a natural feeling to the all the movements while the random color changes create the feeling of a never ending, always changing loop.

Please check Behance for video:

        var random = Math.floor(Math.random()*15)  
        //Tweener.addTween(baszok[j].basz,{width:40, y:500, time:.5  
    }  
    Tweener.addTween(center,{scaleX:10,scaleY:10, time:.5, transition:  
} timer(1.5,growNewCircle);  
  
function growNewCircle(){  
    invertScreen();  
    center.scaleX=0;  
    center.scaleY=0;  
  
    for(var j=0;j<24;j++){
```

Logo and Branding concept

for Curious Garden

A fun side project, where I helped to create branding for my friend's farm, where they grow rare vegetables, edible flowers and other weird things.

The concept was to show this huge variety of vegetables in a logo what is constantly changing, by switching the leave in the background.
